

A two-story white house with dark blue shutters and a covered front porch. The house features a prominent white cornice and decorative window surrounds. The front porch is supported by white columns and has a hanging lantern light. The house is surrounded by greenery, including small trees and a low hedge. The sky is blue with scattered white clouds.

Beyond Aesthetics

Who Is LAS?

We are Engineers

Our Engineers have worked to develop proprietary designs, focusing on the needs of customers and the challenges of varying climate regions.

We are Manufacturers

Our team has been manufacturing LAS custom products to meet specifications established by our design team for over two decades. With over 60,000 combined square feet, we continue to grow and improve our processes.

We are Home Improvement Experts

LAS prides itself on designing, manufacturing, and installing our products that marry form and function, providing the highest level of value for our customers.

“At LAS, we are successful because we improve our customer’s homes with products that are the best in their class. Providing a quality product at an unbeatable value is the key to our success.

Another important component to LAS is our employees; they play a significant role in the company’s success. We provide rewarding jobs with good benefits. By doing this we also contribute to our community.

We offer something unmatched in our industry. It is important to me that we are making a positive impact on the lives of our employees and customers. This is the essence of what Home Improvement means to us at LAS. That is why we say, “We Know Home Improvement”.”

Rick Maia, CEO, LAS

When Form Meets Function

Protection For Your Home

Utilizing our own proprietary designs, all LAS Shutters are made with extruded aluminum for durability and powder coated for a lasting finish. LAS Shutters can be fabricated as:

- Fixed Decorative Shutters without hinges
- Operable Decorative Shutters with hinges
- Nonrated Storm Shutters with hinges and Homegard Storm Bar System
- Wind and/or Impact Rated Storm Shutter with hinges and Homegard Storm Bar System

All LAS Shutters provide protection from wind and debris, as well as offer privacy and home security.

*Colonial with the Homegard storm bar system

The LAS Difference:

LAS engineers have developed their shutter lines using a value driven engineering approach. The shutter design provides a wide variety of choices, while still ensuring a quality product to meet customer needs. Engineering our products allow for better efficiency of raw materials allowing LAS to be a sustainable organization that is here today and here tomorrow for our customers and community.

Colonial Style Louvered Shutters

Inspired by New England colonial architecture, LAS' Colonial Louvered Shutters combine the warm look of wood with the durability and longevity of aluminum.

Featuring a side hinged mounting system, these shutters can dramatically improve the aesthetic appeal and value of your home while providing protection from wind and debris, as well as privacy and home security.

- Virtually maintenance free
- Guaranteed to never rot or warp
- Easy operation & prehung with hinges
- Custom built to fit customer's exact dimensions
- Bifold and architectural shape options available
- Custom options available (hardware)
- Improved insulation from heat and cold when closed
- Florida Building Code Approved options available
- Texas Department of Insurance Approved options available
- Made in the USA

The LAS Difference:

All New England Louvered Shutter configurations can be crossed with Traditional Raised Panel Designs to create several variations of louver/panel combinations.

Tropical Style Bahama Shutters

Bahama Shutters bring the look and feel of the islands to your home, providing you shade, privacy, and protection from the elements.

LAS Bahama Shutters feature a top hinged mounting system and side arms that adjust for your perfect aesthetic angle of closure. The unique design of the shutter provides a reduction of the sun's glare and heat, while still allowing a view of the outside.

- Virtually maintenance free
- Guaranteed to never rot or warp
- Easy operation & prehung with hinges
- Custom built to fit customer's exact dimensions
- Architectural shape options available
- Custom options available (hardware)
- Improved insulation from heat and cold
- Florida Building Code Approved options available
- Texas Department of Insurance Approved options available
- Made in the USA

The LAS Difference:

LAS Bahama Shutter louvers are uniquely angled to provide shade and increased visibility in the open position, without sacrificing any performance strength when closed.

Cottage Style Board & Battens

A traditional cottage style shutter, LAS Board and Batten Shutters bring a warm, rustic look to your home.

Featuring a side hinged mounting system, with the durability of aluminum and look of wood, this shutter is a smart choice for those looking for a practical and decorative window dressing.

- Virtually maintenance free
- Guaranteed to never rot or warp
- Easy operation & prehung with hinges
- Custom built to fit customer's exact dimensions
- Bifold and architectural shape options available
- Custom options available (hardware)
- Improved insulation from heat and cold when closed
- Florida Building Code Approved options available
- Texas Department of Insurance Approved options available
- Made in the USA

The LAS Difference:

LAS engineers have developed the Board and Batten Shutter line using a value driven engineering approach. The shutter design provides a wide variety of choices, while still ensuring a quality product to meet customer needs.

Colonial Style Raised Panels

LAS engineers have pushed the limits of innovation to provide a Raised Panel Shutter unique to it's kind.

LAS' new addition to the shutter line makes a great addition to manor, cottage and traditional architectural style homes. They provide the same beautiful look of wood with less maintenance.

- Virtually maintenance free
- Guaranteed to never rot or warp
- Easy operation & prehung with hinges
- Custom built to fit customer's exact dimensions
- Bifold and architectural shape options available
- Custom options available (hardware)
- Improved insulation from heat and cold when closed
- Made in the USA

The LAS Difference:

All Traditional Style Raised Panel configurations can be crossed with New England Style Louvered Shutter Designs to create several variations of louver/panel combinations.

Wall Systems

Operable & Fixed

At LAS, we offer a unique product that makes a perfect addition to any outdoor setting. LAS Wall Systems are an aesthetically pleasing way to enjoy the outdoors, providing shade and protection from the elements, as well as maintaining your privacy.

- Virtually maintenance free
- Guaranteed to never rot or warp
- Site specific designs available
- Custom options and design capability available
- Made in the USA

Because LAS designs and manufactures all wall systems, we have the unique ability to build almost anything. Our engineers can draft custom projects that will not only look great, but also maintain the integrity of our initial designs.

We work closely with our customers on special projects to understand their unique design requests, functionality and desired aesthetic. Through this process, we work together to meet customer's needs, while providing a low maintenance, durable product.

A Shutter Finish Built To Last

All LAS Shutters have a powder coated finish that provides the look of wood without its maintenance.

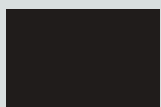

Powder coating is a method in which charged powder is applied to the aluminum shutter in a controlled setting. The coating is then cured to the shutter at high temperatures to provide a long lasting, durable finish.

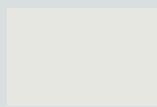

Express Your Style

With LAS as your single source for shutters, all aspects of the shutter can be customized. From aesthetic to functionality, you have complete control over the style of your shutter.
